Step-up mentorship has been really helpful in my UPSC preparation, especially in improving my answer writing with my mentor's guidance. I have been able to practice answer writing regularly, and his discussions of my tests with my mentor help me understand where I am going wrong and how I can improve. I can also reach out whenever I have a doubt, and I receive the required guidance whenever needed.

The regular follow-ups have helped me stay accountable and follow my timetable more consistently. They have also helped me become more disciplined and ensure that I am progressing according to the demands of the syllabus instead of studying randomly.

Overall, the personalised guidance & regular support from my mentor have made my preparation much more structured.

I am genuinely grateful for the consistent guidance and support that have helped me make steady progress in my preparation.

I express my heartfelt gratitude to Vajiram & Ravi team & specifically to the team behind the STEP UP Mentorship Program for their invaluable guidance and support throughout the preparation. Preparing for UPSC was feeling overwhelming but the structured approach which was provided in STEP UP made a difference in my journey. Having direct access to my mentor Parvina ma'am provided me a best platform to resolve doubts & gain clarity in the subject.

The schedules, targets, and regular tests enabled me to complete the syllabus systematically. Focused feedback on my answers sharpened my presentation skills.

I sincerely appreciate the dedication, patience & encouragement shown by my mentor & entire team.

Thankyou

Warm regards,

Yukta S Gunda

The Stepup Mentorship Programme has helped me to identify my mistakes and boost my preparation with regular prelims and mains test discussions.

Providing insights to the flaws which have remained in my preparation. Smaller issues which I was really stuck in consolidation and effective revision of current affairs.

Experience with my mentor has been really good and continuous interaction helped me to recognise grey areas of my preparation and boost confidence. Overall experience is positive and enriching providing clear direction and structured approach to my preparation helping me to recognise my strengths and weakness and stay consistent!

My Experience with Vajiram & Ravi

I enrolled in Vajiram & Ravi's "Step UP Mentorship Programme" under the guidance of Richa Ma'am and my mentor, Gaurav Mittal Sir. This programme helped me qualify Prelims-2026 and understand the actual demand of CSE Mains questions and how to structure answers effectively.

Even after prelims, Vajiram's Free Mains Camp has been extremely helpful for value addition through maps, flowcharts, data, examples etc. and understanding Core and Non-Core demands of questions.

Grateful to Vajiram & Ravi, Richa Ma'am and Gaurav Mittal Sir for their constant guidance and support.

Thank You, Vajiram & Ravi!

For

I Joined the mentorship programme in July 2026. There have been key changes in my preparation since then.

The 1-1 sessions with Ms. Parvina have contributed in micro level feedback -> analysis of individual test copies, identifying common writing errors and keeping up with set targets. It has provided me with a guiding figure at each stage of my UPSC preparation, ensuring timely completion of the syllabus.

Ultimately, it has made me more consistent and confident to be Exam ready.

I recently joined the Step Up Mentorship Program of Vajiram and Ravi. My overall experience with the institution and my mentors is good till now. Mentors help me in maintaining discipline in my preparation via accountability calls, meetings, and test discussions. They also provide the required material for revision, etc. via worksheets, Smashers, etc. They also ensure timely evaluation of the tests.

Thank You
Ashank Sharma

Being a part of Vajiram and Ravi Stepup Mentorship Programme has truly transformed my UPSC preparation. Before joining, I struggled with consistency but program forced me to follow a disciplined daily schedule and write my prelims and mains tests on time. The current affairs module is easily the best part, giving me a massive edge in tracking issues and directly helping me increase my scores to my previous attempt.

The mentorship support is immensely helpful as my mentor is always available to help me whenever I get stuck. Having someone to guide me through the phases and answer my queries anytime took a huge burden off my shoulders. A special mention goes to Ayush Sir whose constant availability and timely guidance kept me on track throughout.

The Stepup Mentorship program has proved highly beneficial for me. Now I can keep a track of my preparation and also put a check on my progress with the help of my mentor.

Since I joined this program in December 2025, my mentor at that time was Tanvi Sir and now my mentor is Ankur Raj Sir. For me both are like Guru. Dr. Bhaichand and directing me in right direction.

I personally feel that I have missed so much about the way of preparation and about the smart approach of preparation by not joining the Step up program earlier.

Now I feel more confident as I know that the mentor Sir is like Captain of my ship and will reach the land of Success very soon in the guidance and direction of mentor Sir.

StepUp Mentorship 2027 isn't another program

it's 4-layered preparation ecosystem built for serious UPSC aspirants.

- You won't navigate this journey alone or depend on motivational fatigue.
- You'll operate inside a system — one built on structure, accountability, and iteration.
- Because an eternal truth: individuals can fail; systems don't.

You'll work under a personal mentor who tracks your progress, corrects your mistakes, and builds a plan around your strengths, weaknesses, and learning pace. Alongside them, an IAS/IPS/IRS topper serves as your super mentor—reviewing your preparation, correcting your direction, and teaching you how toppers think, write, and execute.

This isn't about "finishing the syllabus."

It's about mastering what UPSC actually rewards — structured thinking, sharp note-making, disciplined revision, analytical depth, and answer writing that looks like it belongs in a DAF, not a notebook.

By the time you face Prelims, Mains, and the Interview, you won't be one more candidate attempting the exam — you'll be someone prepared to dominate it.

Why must you join this StepUp Mentorship Programme 2027?
